FLOWNIDAS HISTORY

Flounidas "fish son" Sparta July 5, 540 BC to the present day. Its predecessor was Flouwmenes first and its successor Flouwstarco. Belonging to the family of the Agiadas, his father was ANAXANDRIDAS 2 and his mother GORGO queen of Sparta.

The story will be quite far from reality but we will all move forward together from this moment, our first big battle will be in the thermopiles against our enemy PERPES, for this we are preparing a 3D video to recreate how our community will change the destiny of history to continue advancing to our next objective..

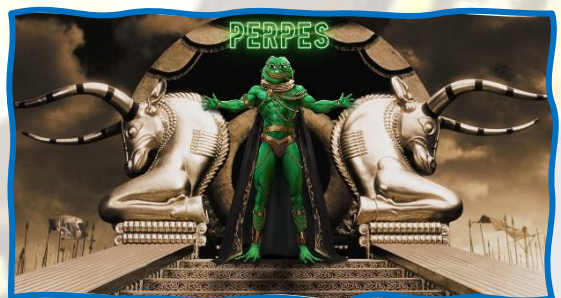

To do this, we will seek alliances to be able to continue living in peace in our beloved FLOWPARTA... We are sure that many of our friends will join us on our adventures... The objective is to seek strategies and alliances in order to be able to command this army until today, remember that we will face PERSIANS, GREEKS, MAYANS, EGYPTIANS, ROMANS, IBERIANS AND CELTS.

The first alliances we will try to form will be with VIKING communities since we are facing a similar form of struggle and ideals, less organized in battle, but without fear of anything or anyone...

We will make the battle of THERMOPYLAE epic, it will be the beginning of something unique, we will advance through history and our end will come in the Normandy landings being part of the allies that culminated in the liberation of the territories of Western Europe occupied by NAZI Germany.

In the same way, the game we are preparing will also start being part of the battle of thermopylae, we will advance and change the scenarios as we advance in the story.

Only in the side-scrolling game...

MARKET

From Flouw and his team of analysts, we detected variable scams in the solana blockchain, the honesty of an investor is highly exposed and we hardly found stable projects that did not end up in CTO, but the problem detected went further than some developers who abandoned a project, we located many CTOs led by people who were in connection with the developers, thus orchestrating a larger scam where investors put their trust and were scammed again by the members who had taken charge of the community. We could give several examples that have turned out to be scams from the developers and the subsequent CTO, we will not do it so as not to apply advertising in our whitepaper of illegitimate projects.

We even detected some communities that made contributions from many solanas in donations for marketing actions that they never got to carry out. We have located hundreds of scams during the last month on the solana blockchain, even getting caught up in some of them because of the trust that the developers transmitted to us, we detected that many projects when they reached one million marketcap began to go down for no apparent reason since many of them even had influencers with many followers on different platforms betting on these coins and placing ads on their profiles on different platforms, this does not imply that these influencers were in contact with the scam, but that they were surely also scammed by members of the development team or by members of the CTO.

Also during the last month we have seen the proliferation of scams in pump fun, with snipers willing to eliminate any option to make a cryptocurrency with sense and honorability, many of these scams are built from the beginning including buying bots in order to attract the attention of buyers, some even never come out in raydium and are simple carpets inside pump fun.

At this point and faced with this problem, we decided to set off to carry out a project that stabilizes in the market through its transparency and seriousness, even though it is a memecoin.

The main objective of Flouw is transparency as we have mentioned, but we cannot leave communication and fun aside, so from the Flouw team we wanted to contribute something different.

We feel reflected in the Spartan spirit, where their warriors fought to the end for the good of their POLI (community), they never forgot their beliefs and died for them as authentic Spartans, always remember that their battle system was to attack the enemy and defend the Spartan who was on their right flank, so they were always protected from possible melee attacks... We were born to be warriors and to fight for you, so let's start with this battle that will take us to different places in the world...

Let's go, Phantowpartas

MARKET SOLUTION

Flouw will be primarily transparent, created and based by and for the community...

Maximum transparency will be based on transmitting as much information as possible to the community and with the community making decisions through voting on our official Telegram channel.

For Flouw it is very important to have a firm commitment to the community.

- MAXIMUM TRANSPARENCY OF OUR DEVELOPMENT TEAM**
- PUBLIC TOKEN DISTRIBUTION**
- PUBLIC AND PARTIALLY LOCKED DEVELOPER WALLETS**
- PARTIALLY LOCKED AIRDROP**
- PUBLIC AIRDROP LOCKED 1 YEAR**
- DEVELOPERS PRESENTED TO THE COMMUNITY**
- UNDER NO CIRCUMSTANCES WILL PAYMENTS BE MADE WITH OUR TOKEN**
- PAYMENTS AND PUBLIC EXPENDITURES**
- TOKEN PROGRAMMED AND VERIFIED BEFORE LAUNCH**
- CONTRACT REVOKED AND LP BURNED FROM DAY ONE**
- DEVELOPER DOCUMENTATION DELIVERED TO THE DIFFERENT EXCHANGES**

Anyone who has the need to have the developers' documentation with a justified reason, will be delivered. You can contact us through our contact email, let us know your need to have our documentation and if we consider it appropriate it will be transmitted immediately.

Any ideas from the community to provide maximum transparency will be welcomed by the developers.

All the portfolios distributed by the developers can be found in the documentation section of the website so that anyone, whether they are an investor or not, can do their own research and thus clear any doubts that may appear regarding this project...

The fact that we are a memecoin does not imply that we cannot have a stable project with growth expectations, the fact is that we do not consider ourselves a memecoin but our idea is to be a meme coin PROJECT, with defined bases and a roadmap to follow from day 1. From the Flou team we are excited about the idea of this project and that is why we want to transmit our enthusiasm and our desire to the rest of the crypto world.

NFT

Our artist has put a lot of effort into creating NFTs at the height of \$FLOUW but he has not wanted to stay alone, he has created different friends to make our future reward system more entertaining... This will be the first collection of a total of 3... The 3 collections will be used for liquidity and marketing and the first will be launched the moment we launch the website. The second collection will be created 1 month after the release of \$Flouw and the last one will be created 3 months after... The funds will be used entirely for marketing and liquidity

FIRST EDITION NFT	
550	NFT TIER 1
225	NFT LEVEL 2
225	NFT LEVEL 3

SECOND EDITION NFT	
400	NFT TIER 1
200	NFT LEVEL 2
150	NFT LEVEL 3

THIRD EDITION		
150	NFT TIER 1	SUPER NFT
100	NFT LEVEL 2	SUPER NFT
50	NFT LEVEL 3	SUPER NFT

I'M ALSO HAPPY TO ANNOUNCE THAT \$FLOUW AND HIS FRIENDS ARE CREATING AN NFT EVOLUTION LAB

If we have two level 1 nfts with 40% strength, we will go through the laboratory to burn those two NFTs and get a Level 1 40% EVOLVED strength.

Holders of EVOLVED NFTs will also receive extra UNLOCK token compensation.

The NFT sub-supply that we provide for liquidity will be burned in the laboratory.

DO YOU DARE TO SET FIRE TO THE BURNING?

TYPES OF NFTS

IN THIS FIRST EDITION NFTS THE LEVELS ARE AS FOLLOWS:

LEVEL 1		
FLOWW		10% STRENGTH
FISHHOOK		20% STRENGTH
FISHING ROD		30% STRENGTH
FISHING NET		40% STRENGTH
LEVEL 2		
ARPOON		50% STRENGTH
SWEATSHIRT WITH CYLINDER		60% STRENGTH

MINI BALSA		70% STRENGTH
LEVEL 3		
MINI FISHING		80% STRENGTH
LARGE FISHING BOAT		90% STRENGTH
GIANT PESQUERO		100% STRENGTH

NFTS AND EVOLUTION

The first edition will have a total of 1000 NFTS and will serve entirely to give liquidity to the token and initial marketing...

The second edition will have a total of 500 NFTs and will serve to expand marketing and position us in different important Exchanges...

We will also use a portion of this sale to continue rewarding our NFT holders with prizes.

The third edition will have a total of 250 NFTs will be sustainable NFTS since for us the sustainability of the planet is one more reason for struggle in the crypto ecosystem, advertising of our friend flow protecting our ecosystem... We have one goal and to be the first memecoin truly concerned with the advancement of civilization towards a sustainable world. As you already know, our journey begins in Sparta, but we will make our way around the planet over time.

NFT buyers will receive a 48 airdrop after their acquisition (it can always be delayed, but we will never release our token to the market without making sure everyone has received their share).

NFT buyers will receive the airdrop with the unlocked part in a period of 48 hours after the purchase of the NFTS, the locked part will also be received by airdrop from November 28, it will be the first unlocking for NFT buyers, they must make a CLAIM on the website to request their tokens in each unlock as seen in the following photo.

The evolution lab will serve for the evolution of our NFTS, people who evolve their NFTS will be compensated with an extra token amount **UNLOCKED**

For now, the evolution will be manual until we have the burning laboratory ready.

REWARDS NFTS

Nft holders will receive numerous rewards. As a reward for their loyalty, they will be the first holders of the flouw token and will receive it as follows

First Tournament POKER NFTS Flouw

The online poker tournament will be held from our website and in the same way as the NFTS will be divided into 3 tournaments of different levels and different prizes.

LEVELS	GAMBLERS	AWARDS
LEVEL 1	300 wallets with the highest number of NFTs	<ul style="list-style-type: none"> - \$500 for the winner - \$100 for three finalists
LEVEL 2	225 PLAYERS + 5 INFLUENCERS	<ul style="list-style-type: none"> - 1000 USDT for the winner - 200 USDT for three finalists
LEVEL 3	225 PLAYERS + 5 INFLUENCERS	<ul style="list-style-type: none"> - 2500 USDT for the winner - 250 USDT for 3 finalists

SPARTAN FLOWW GAME

As we have mentioned, we want NFT buyers to be an active part of our community and we will thank them for their trust throughout our journey through this cryptoloco world

We will insert a game on the website, where there will be 3 game modes, game by distraction that anyone who wants to play from the website can play without having to connect their wallet, it will be a game where you will not receive economic compensation but we will be holding MONTHLY open tournaments where we will compensate the winners.

Modality number 2 will be for NFT holders where each week we will reward the person who has achieved the best score, being cumulative

weekly most of the time (whoever gets the highest score weekly accumulating all their games will be the winner of that week), also in the same way some weeks the winner will be the one who has made the highest score in 1 single game during that week...

THIS GAME MODE WILL BE A VERSION OF LATERAL MOVEMENT WITH BURSTS OF ENEMIES.

We will also have a PvsP mode where you can bet an amount of coins between the players and the winner will take the jackpot collected... We will also organize tournaments, for these games you can buy equipment in the marketplace also integrated into our website.

THIS MODE WILL BE STREET FIGHTER STYLE, BUT SPARTAN THEMED.

We will be advancing more award modalities to reward the confidence of FLOUW investors

NFT UTILITIES (NON-ECONOMIC)

NFT holding wallets will always be monitored in order to know at all times who the NFT holders are.

A group will be created on the Telegram for holders of at least 6 LEVEL 1 NFTs, 4 LEVEL 2 NFTs OR 2 LEVEL 3 NFTS. In this group things will be discussed and inroads will be made to promote advertising and marketing... They will have information in advance that will then be transmitted to the official Telegram group being themselves in charge of transmitting this information, it would be the closest thing to the well-known Whale group.

We believe that those who invest in NFTS are because they believe in the project and trust to take it very far, the main objective of this group is not to give privileged information but the creation of the group is to promote the explosion of FLOUW regarding marketing, advertising and different aspects that will be very influential in the future of FLOUW...

NFT holders will have power over the votes that are made in the community... They can even propose votes to improve and then vote on them in community.

The only privileged information from this group is that they will be the only ones to know the exact moment of the token's launch...

How can you help us grow as a community?

Here are some simple examples that are very important to us:

- RETWEET A POST FROM FLOUW'S TWITTER
- LIKING A FLOUW POST
- USE A PHOTO OF FLOUW ON TWITTER
- USE A PHOTO OF FLOUW ON TELEGRAM.
- MEME CONTEST
- CREATE A TWITTER POST ABOUT FLOUW
- COMMENT ON A POST BY AN INFLUENCER SUPPORTING FLOW
- ETC ETC ETC

Here are some examples to show you that really helping to create a unity and broad community is the most important thing for a meme. The main mission of our NFTS is to promote marketing and achieve the necessary liquidity to launch a coin that is sustainable and above all that makes us enjoy and have fun all together.

The FLOUW airdrop will be sent 48 hours after the acquisition of the NFTs

YOU WILL BE THE FIRST FLOUW HOLDERS

What are you waiting for to load your NFT bags???

COME ON, LET'S MAKE FLOUW A REALITY.

FUNDS RAISED

75 NFT	90%	0.95 SOL	90 SOL
50 NFTs	100%	1 SOL	50 SOL
1000 NFTs			502 SOL

The funds raised will be used entirely for marketing and the launch of the token on major platforms integrated into the SOLANA network.

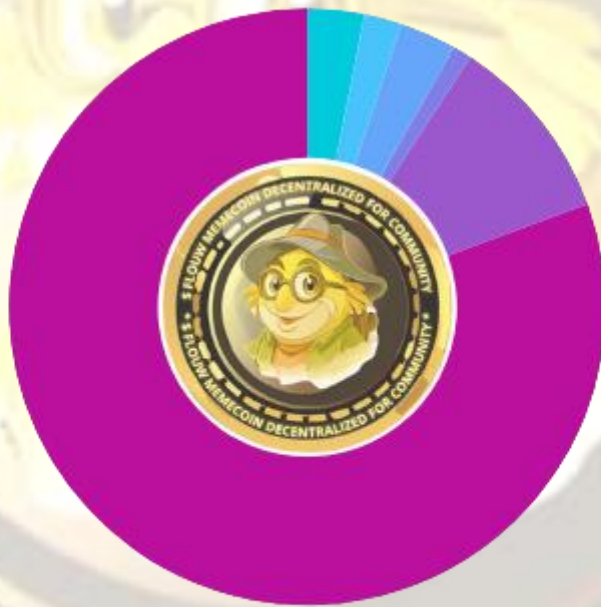

We will hire influencers especially for the LAUNCH OF NFTS and TOKEN LAUNCH, then we would like to develop something organic, not a pump and dump, we want to do something lasting over time and that in the end we can dedicate ourselves entirely to this project full time...

- We have contracted art receiving weekly drawings from 2 artists.
- Website launched.
- twitter and Telegram verified.
- Paid NFT creation.
- creation of 50 paid NFTS in SOLSEA, (account pending verification requested).
- FLOUW SPARTAN 3d character creation for web game.
- creation of Beta game SPARTAN FLOUW (demo) (paid pending receipt).
- Stickers de Telegram.

12% LISTED ON CEX

We will send a portion of our supply to the portfolios of the major CEXs, this does not guarantee to be listed nor does it guarantee to be considered for it, the only thing that guarantees to be supported by the CEXs is the strong unity of the community. The only guarantee of success in getting listed is a strong, close-knit community.

79% LIQUIDITY & LP BURN

Of this remaining 79% will be used to provide liquidity in the pool, the rest will be burned at the same time that the token is launched in RAIDYUM, ORCA AND JUPITER.

TEAM

Let's start by introducing ourselves first:

Vicente, He was the one who created the FLOUW that you all know, developer of graphic and web designs, I hope you are as excited as I and TRENT are about the results he has achieved ... Excited just like me and TRENT for what we are creating for the future community.

Trent, Some of you will know him as Midwestern, those who know him know very well how he is and for those who do not know him yet I am sure that they will be delighted by his good work and his willingness to help, in charge from day 1 of social networks and marketing, He will be our general commander on Telegram so please do not make it too difficult for

Trent will also be the main holder of the multi-sign wallet and also the one in charge of making the payments that are needed. he will also be the holder of the NFT wallet and SOL raised...

I am Alex, basically the instigator of creating this project, I think that at first it was difficult to understand everything but once we have been moving forward I can assure you that the 3 of us have no doubt that if we want we have no ceiling to touch.

The team will hand over your documentation to different exchanges, we do not consider it appropriate to expose it to anyone who may make fraudulent use of it.

Even so, to exercise transparency we will do Amas and video chats where anyone who wants to meet us can do so without problems...

We are right now looking for a person who can help us and give us support in the Asian market, both for the Amas and for twitter and advertising contracts in that country. (we are picky about choice)

For the selection of more team members, certain documents will be required, as well as being able to appear in video chats to be recognizable to the people who make up our community.

We understand that just like us, when a person is transparent and acts with kindness, they do not have to hide anything, much less their face, that is why we ask that people who do not want to show their identity refrain from doing so, since for us, as we have mentioned, transparency is the most important thing.

(only applicable to the part of the team that wants to be rewarded with our token)

We understand in the same way that many people do not want to show their documentation or show their appearance, we not only understand it but we also respect it, so if you are among this group of people I am sorry but you will not be able to be part of our team.

We have reserved a 2% supply for the future team that we will be training in the different channels, telegrams, twitter, weibo, etc. When we consider that a person from the team deserves to be rewarded if they are given a part of the supply, the team members will be the only ones who will be rewarded with our token since we trust that the team members have to be the maximum holders and the first ones interested in keeping their tokens knowing what the future holds.

COMMUNITY TREATMENT

VERY IMPORTANT

Please \$flouw want to show the world that we are a united community, all debate within Telegram or any media we ask that it be done in a polite way, and cordially we do not want to be a community where you cannot debate and we find Telegram administrators who have no choice but to mute or ban... In 90% of the cases a BAN or MUTE is a sale, let's accept the polite questions, accept the criticism in the mistakes and above all debate about them, in logic the error enters, but in our logic there is no discrimination against people who think differently. The more educated we are, the more we will be... Any question, no matter how absurd it may seem, will be well received, any idea, no matter how absurd it may seem, will be well received... the knowledge of many will be the future wisdom of all... We won't be able to prevent angry people from calling us thieves, or simply a person who wants to throw the graphic on the floor to be able to buy it below... In the face of an attack, let's not use another attack, but let's defend ourselves with evidence... To think that those who have the evidence will always have a way to defend this project...
LET US ALWAYS BE CORDIAL.

When something is transparent, there will always be evidence to refute those who say otherwise.

There will always be people who speak badly, it is impossible to please everyone, let's respect it and in the end... **WHETHER THEY SPEAK BADLY OR WELL, THE IMPORTANT THING IS THAT THEY SPEAK.**

We ask that the community please be aware that being listed on large EXCHANGES is a dream that can come true, but it is still a dream... Please don't disturb your community or call on your CEOs by any means... let's avoid disturbing, surely they have better things to do than pay attention to TELEGRAM or TWITTER messages, let them work just as the Developers of this project will be working and in permanent contact with all the Exchanges to inform of the changes periodically.

Exceptions and immediate banning in any media.

- INSULTS OR DISRESPECTFUL OFFENSES.
- DISCRIMINATION ON ANY TRAIT.

REMEMBER THAT WE WILL NEVER KNOW WHO IS WATCHING US BEHIND A TELEGRAM ACCOUNT... LET'S SHOW CORDIALITY AND POLITENESS AND ABOVE ALL UNITY... SINCE SOMETHING AS SIMPLE AS EDUCATION AND GOOD WORK CAN OPEN GREAT DOORS FOR US IN THE FUTURE...

DISCLAIMER

From the FLOUW team we cannot be responsible for market fluctuations so please do not risk what you cannot lose, we are here to have fun, always remember it and have fun.
